BONDTECH X400 SOLVENT

TECHNICAL DATA SHEET

DESCRIPTION & USES:

Bondtech X400 Solvent is used as a surface cleaner for preparing surfaces of rubber, glass, metals and most plastic and painted surfaces prior to the application of a primer, adhesive or tape.

Preparing the surface will assist in obtaining maximum bond strength from the adhesive system used.

APPLICATION:

- Protective gloves should be worn at all times when handling this solvent.
- Bondtech X400 Solvent can be applied using a lint-free cloth or tissue.
- Ensure that the cloth is regularly changed and only rubbed in one direction to prevent cross contamination.
- Application of primer, tape or adhesive can proceed only after all the solvent has been removed or has evaporated.

PROPERTIES:

- Appearance: Clear colourless liquid.
- Viscosity: Water thin liquid.
- Specific gravity: Approx 0.79

Note: Additional information on physical properties, health hazards, storage, handling and transport is available in the Material Safety Data Sheet (MSDS).
